OWNER’S MANUAL

Read and understand this entire manual before allowing child to use this product! For assistance contact Razor. DO NOT RETURN TO STORE.

NOTE: Manual illustrations are for demonstration purposes only. Illustrations may not reflect exact appearance of actual product. Specifications subject to change without notice.

Please have your product along with the 22 character product I.D. code with you before contacting Razor for warranty assistance and/or replacement parts.

Product I.D. Code: _____________ - ____________ - ____________
SAFETY WARNINGS

AN IMPORTANT MESSAGE TO PARENTS: This manual contains important information. For your child’s safety, initial setup and steering tube installation require adult assistance for young riders. It is your responsibility to review this information with your child and make sure that your child understands all warnings, cautions, instructions and safety topics. Razor USA recommends that you periodically review and reinforce the information in this manual with younger riders, and that you inspect and maintain your child’s scooter to ensure their safety.

GENERAL WARNING: Scooter riding can be a hazardous activity. Scooters can and are intended to be moved, and it is therefore possible to get into dangerous situations and/or lose control and/or fall. If such things occur you can be seriously injured or die. LIKE ANY OTHER MOVING PRODUCT, USING A SCOOTER CAN BE A DANGEROUS ACTIVITY AND MAY RESULT IN INJURY OR DEATH EVEN WHEN USED WITH PROPER SAFETY PRECAUTIONS. USE AT YOUR OWN RISK AND USE COMMON SENSE.

• Always wear safety equipment, such as helmet, knee pads and elbow pads. Always wear a helmet when riding your scooter and keep the chinstrap securely buckled.
• Always wear closed toe shoes.
• Ride on smooth, paved surfaces away from motor vehicles.
• Avoid sharp bumps, drainage grates, and sudden surface changes. Scooter may suddenly stop.
• Avoid streets and surfaces with water, sand, gravel, dirt, leaves, and other debris. Wet weather impairs traction, braking, and visibility.
• Do not ride at night.
• Brake will get hot from continuous use. Do not touch after braking.
• Avoid excessive speed associated with downhill rides.
• Adults must assist children in the initial assembly and/or adjustment procedures.
• Obey all local traffic and scootering laws and regulations.
• Watch out for pedestrians.
• Do not exceed 143 lb (65 kg) total weight on the scooter.
• Do not allow children under age six (6) to use the scooter. These scooters are for children ages six (6) and above. Children under age eight (8) should ride with adult supervision at all times. All children and preteens should ride with adult guidance at all times.
• Rider weight does not necessarily mean a child’s size is appropriate to fit or maintain control of the scooter.
• A parent’s decision to allow his or her child to ride this product should be based on the child’s maturity, skill and ability to follow rules.

ACCEPTABLE RIDING PRACTICES AND CONDITIONS
Direct parental supervision is required. Scooters are meant to be used only in controlled environments free of potential traffic hazards and not on public streets. Do not allow your child to ride a scooter in any areas where vehicle traffic is present. Child must maintain a hold on the handlebars at all times. Never allow more than one child at a time to ride a scooter. Never use near steps, sloped driveways, hills, roadways, alleys or swimming pool areas.

Do not ride a scooter in wet weather. Scooters are intended for use on solid, flat, clean and dry surfaces, such as pavement or level ground, without loose debris, such as rocks or gravel. Wet, slick or uneven and rough surfaces may impair traction and contribute to possible accidents. Do not ride a scooter in mud, ice, puddles or water. Avoid excessive speeds that can be associated with downhill rides. Never risk damaging surfaces, such as carpet or flooring, by use of a scooter indoors. Do not ride at night or when visibility is impaired.

PROPER RIDING ATTIRE
Always ensure child is wearing proper protective equipment, such as an approved safety helmet. A helmet may be legally required by local law or regulation in your area. A child should always wear shoes and keep shoelaces tied and out of the way of the wheels. Never ride barefooted or in sandals. Knee pads and elbow pads are recommended.

WARNING: ALWAYS INSPECT SCOOTER PRIOR TO RIDING. Properly inspecting and maintaining your scooter can reduce the risk of injury. Always inspect your scooter before riding and regularly maintain it.

WARNING: CHECK LOCAL LAWS REGARDING SCOOTER USE. Check local laws and regulations to see where and how you may use your Razor scooter legally. In many states and local areas scooter riders are required BY LAW to wear a helmet. Check local laws and regulations regarding laws governing helmet use and scooter operation in your area.

FAILURE TO USE COMMON SENSE AND HEED THE ABOVE WARNINGS FURTHER INCREASES RISK OF SERIOUS INJURY. USE AT YOUR OWN RISK AND WITH APPROPRIATE AND SERIOUS ATTENTION TO SAFE OPERATION. USE CAUTION.
BEFORE YOU BEGIN

Remove contents from box. Inspect the contents of the box for scratches in the paint and/or dents that may have occurred during shipping. Because your scooter was partially assembled and packed at the factory, there should not be any problems, even if the box has a few scars or dents.

WARNING: DO NOT USE NON-RAZOR PRODUCTS WITH YOUR SCOOTER. Razor scooters have been built to certain Razor design specifications. The original equipment supplied at the time of sale was selected on the basis of its compatibility with the frame, fork and all other parts. Certain aftermarket products may not be compatible and will void the warranty.

ASSEMBLY AND SET-UP

Assembling the Handlebars

WARNING: Failure to properly engage the spring-loaded buttons may cause the handlebars to dislodge while riding and may cause rider to lose control and fall. When correctly engaged, the handlebars will not rotate nor move sideways, and the spring-loaded buttons will be clearly visible in the holes on the T-bar.

WARNING: Check hand grips regularly for wear or damage, as grips are designed to aid in gripping handlebars and to provide some protection against possible impact. Replace immediately if worn, torn, damaged or missing.

Assembling the T-bar

Tool required: 5 mm Allen wrench

WARNING: Failure to properly install and tighten the collar clamp may cause the rider to lose control and fall. If you do not understand these instructions, contact Razor customer care for assistance.

WARNING: Do not attempt to thread the handlebar into the front fork thread. Tighten clamp securely.

1. Loosen the collar clamp and slide it upward. Insert T-bar into the fork until it bottoms out on the headset locknut.
   
   Note: If necessary, carefully twist the T-bar side to side while pushing downward until T-bar bottoms out on the headset locknut.

2. With the front wheel pointed straight ahead, the handlebars square to the front wheel and the Razor logo facing the front, tighten the clamp as shown. Tighten securely.
PRE-RIDE CHECKLIST

Deck and Handlebars
Check for cracks or broken connections. Although broken decks are rare, it is possible for an aggressive rider to run into a curb or object and wreck and bend or break the deck. Get in the habit of inspecting your scooter on a regular basis.

Hardware/Loose Parts
Check and secure all fasteners before every ride. Make sure the collar clamp is locked properly into place before riding. There should not be any unusual rattles or sounds from loose parts or broken components. If the unit is damaged, do not ride. Reference “Safety Warnings” on page 1 of this manual.

Safety Gear
Always wear proper protective gear, such as an approved safety helmet. Elbow pads and knee pads are recommended. Always wear closed toe shoes (lace-up with rubber soles) and keep shoelaces tied and out of the way of the wheels. NEVER RIDE BAREFOOTED OR IN SANDALS.

Laws and Regulations
Always check and obey any local laws or regulations.

Be Careful!
This product is not for aggressive or trick riding. Avoid steep inclines and don’t ride too fast — you can lose control and fall. Skateboard parks are not designed for young riders. Never ride in traffic or on the street and watch your surroundings for pedestrians, bikers, boarders and skaters.

Maintain a hold on the handlebars at all times.

USAGE

How to Ride
Place one foot on the baseboard and push forward with the other foot. Steer with both hands on the handlebars. For enhanced cornering, lean slightly into the direction of the turn.

Note: Lighted wheels light up when wheels are in motion. (Select models only)

How to Stop
For controlled stops, apply the brake by stepping on the brake. Razor recommends that you practice applying the brake at various speeds and in an open area free from obstructions before riding your Razor scooter around others.

## Cleaning Your Scooter

Wipe with a damp cloth to remove dirt and dust. Do not use industrial cleaners or solvents, as they may damage the surfaces. Do not use alcohol, alcohol-based or ammonia-based cleaners, as they may damage or dissolve the plastic components or soften the decals or decal adhesive.

## Collar Clamp

**Tool required:** 5 mm Allen wrench

1. Using a 5 mm Allen wrench, check that the collar clamp bolt is tightened securely. Make sure the front wheel is pointed straight ahead and the handlebars is squared to the front wheel.

## Wheels and Bearings

Under normal circumstances and conditions, Razor wheels and wheel bearings are maintenance free. Nonetheless, it is the responsibility of the owner or guardian to periodically inspect the wheels for wear and tear, the axle for proper tightness, bearings for side-to-side play, and for loose parts. When a wheel develops play, this is an indication of excess wear and replacement is necessary. Replace immediately with only genuine Razor wheels. Worn wheels/bearings are considered normal wear-and-tear and are not covered by the Razor Warranty. Wheels other than genuine Razor wheels may not be compatible with your Razor scooter. The use of anything other than genuine Razor replacement parts may affect your safety and will void your warranty.

## Replacement Parts

The most frequently requested replacement parts are available for purchase at some Razor retail partners. For the complete selection of replacement parts visit shop.razor.com.

## Repair Centers

For a list of authorized Razor repair centers:

- Check online at www.razor.com.
- Additional Customer Service contact information is listed at the back of this manual.

Razor Limited Warranty

The manufacturer warranties this product to be free of manufacturing defects for a period of 6 months from date of purchase. This Limited Warranty does not cover normal wear and tear, or any damage, failure or loss caused by improper assembly, maintenance, or storage.

This Limited Warranty will be void if the product is ever:
• used in a manner other than for recreation or transportation;
• modified in any way;
• rented.

The manufacturer is not liable for incidental or consequential loss or damage due directly or indirectly to the use of this product.

Razor does not offer an extended warranty. If you have purchased an extended warranty, it must be honored by the store at which it was purchased.
